SC Series WoodCore Panel System

Camino's SC Panels are manufactured in Canada with a composite cemetitious treated wood core and a galvanized steel shell precisely sized to have superior performance for underfloor air applications. Panels are available in both bolted-corner and bare corner styles and can be manufactured with high pressure laminate or conductive vinyl finishes for computer room applications. Meets Class 1 and Class A fire ratings.

APPLICATIONS:

- Offices
- Conference Rooms
- Training Centers
- Libraries
- Auditoriums
- Casinos
- Museums

SC Series Panels feature a cementitious treated core for improved Class A / Class 1 fire performance.
