

**PRODUCT FEATURES**

- Continuous plenum capability at the perimeter of the building
- Coordinates well with floor to ceiling glazed curtain walls - heat & cooling modes.
- Flexible to work with many building envelope designs and sustainable solutions
- Accommodates heating and cooling components as a perimeter zone
- Speeds-up construction sequencing for access floors and HVAC construction
- Flexible in height and width solutions at corners and directional changes at the perimeter

NOTE: LGX Linear Grille Series available in 5/16" & 3/8" spacing with straight or directional vanes. Overall dimensions to be specified.

All dimensions are in inches.
