CONCEALED / BORDERLESS FRAME (V)

PRODUCT FEATURES

- Concealed frame for use with tile, masonry, & millwork surfaces. For GWB applications, use Border BF (Mud-In Frame)
- Adjustable volume and pattern controllers
- Hardware package includes duct mounting brackets & screws, and alignment strips (where a continuous run consists of multiple sections)
- Anemostat Model AD-X plenums are ordered and shipped separate from the diffusers. Contact factory for plenum details for this model.
- Nominal Length is the order size
- Flush end caps are removable
