Architectural Grilles
QUICK SELECTION GUIDE

Anemostat's Architectural Grilles can be fabricated using one of our standard patterns or e-mail your custom pattern / logo for a quote. If you can draw it, we can manufacture it - keep an eye on free area to meet HVAC requirements. Keep in mind that a solid web or fret is required throughout the pattern to keep it all together (like a stencil). Drawing files should be 1:1 scale (.dxf, .dwg, .pdf format). We stock steel, aluminum, stainless steel, brass, and bronze materials in various gauges / thicknesses with painted, polished, or oxidized finishes to meet any design requirements.

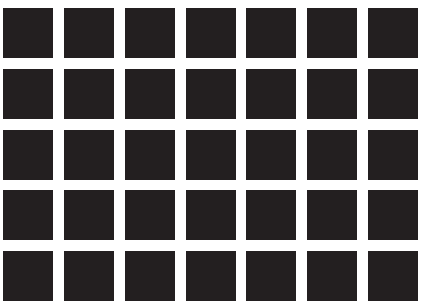

ROUND HOLE PATTERNS (STAGGERED CENTERS)

5/32" DIA ON 7/32" CENTERS 46%	(P5)
3/16" DIA ON 9/32" CENTERS 40%	(P6)
